## CHAPTER \_\_\_\_\_

An act to add Section 10111.5 to the Public Contract Code, relating to public contracts.

## LEGISLATIVE COUNSEL'S DIGEST

AB 756, Eng. Public contracts: information: Internet Web site.

Existing law governing contracting between state agencies and private contractors sets forth requirements for the procurement of supplies, materials, equipment, and services by state agencies and sets forth the various responsibilities of the Department of General Services and other state agencies in overseeing and implementing state contracting procedures and policies.

This bill would require a state agency, except as specified, to provide a link to a centrally located and accessible state-run Internet Web site that includes a list of the personal services and consulting services contracts, as defined, entered into by the agency. This bill would require the listings on the state's Internet Web site to include specified information, and would require, on and after January 1, 2012, a summary of a contract to be initially posted within 15 working days of being signed by all parties. This bill would require the Director of the Department of General Services to maintain the Internet Web site and to establish the publishing of the contract listing information. This bill would also authorize the department to use the services of any state agency.

This bill would require contractors to electronically provide specified information to assist state agencies in the reporting of information for the listings of personal services and consulting services contracts.

*The people of the State of California do enact as follows:*
